

# Important Changes to Powerball

An information brochure for players

## In August 2007, there will be changes to Powerball.

From Draw 586 on 9 August 2007, the price of Powerball will increase by 5 cents per game (plus retailer commission). This is so we can offer you bigger jackpots and when you win, you could win even more! The Powerball jackpot sequence will change allowing the game to jackpot more quickly, to Division One levels as high as \$35 million.
