Lotterywest

Thanks to the thousands of Western Australians who play our games, Lotterywest has been an important source of funds for the Western Australian community for over 70 years.

Profits from the sale of our games enable us to provide millions of dollars each year to WA's hospitals, sports, arts and community groups, to help build our community and improve the quality-of-life of Western Australians.

What is a Lotterywest Grant?

Lotterywest grants aim to assist community organisations to turn their ideas into reality. We see the grants we make as an investment, not only in the future of your organisation, but in the future of the Western Australian community as a whole.

Lotterywest grants should make a difference to a community. Our preference is for proposals that have come from, or been embraced by, a community, that will involve a wide cross section of people and will enhance the quality-of-life of Western Australians.

Lotterywest has five broad grant areas. These have come about in response to community priorities. Lotterywest grants will:

- Extend the capacity of not-for-profit organisations.
- Strengthen community service delivery.
- Enhance community development initiatives.
- Value our State's heritage.
- Advance participation in community life.

Within these grant areas we have developed information packages which provide information on common grant opportunities. We encourage you to look at the different packages to get a more detailed sense of the various opportunities.

In addition to community development grants we provide grants for a variety of purposes. Just a few examples include recreation for people with a disability, community celebrations, heritage and conservation, and for services for seniors, young people and children.

Our primary intent is to provide grants! Once we've confirmed your organisation's eligibility under our legislation, we work with the organisation to develop their proposal. We may also consider a small grant to further develop a proposal to a stage where the application can be assessed.

If your organisation has an idea, we encourage you to contact Lotterywest. Please refer to the contact details at the end of this document.

Who Can Apply for These Grants?

Lotterywest grants are guided by legislation that requires grants to be made to not-for-profit organisations or local government authorities for charitable or benevolent purposes.

You can apply for a community development initiatives grant if you are a **not-for-profit organisations or a local government authority**. Priority is given to organisations that are working with the people who are initiating and developing the project in the community.

Individuals, private or for-profit organisations, government bodies and organisations with a statutory base are not eligible for this grant.

Some grants have different eligibility requirements. These are explained in the various Lotterywest grant information packages.

Enhancing Community Development Initiatives Grants

Lotterywest's 'Enhancing Community Development Initiatives' grants support projects for up to three years to improve the well-being of a community through local initiatives that seek to facilitate lasting change.

"Community" is defined as people who:

- are linked because they live in, or come, from a particular geographic area;
- have a common interest or connection.

For example, people living in a rural town, Aboriginal youth, young mothers, children and their parents or carers, people from the same cultural or ethnic background, gay and lesbian youth, people living with a disability.

Projects should create links between people, places, community groups and resources and improve access to the community by people who might otherwise not participate. An objective is to create more inclusive communities. Inclusion is defined as action that results in people participating in and contributing to their communities.

For many communities there is a desire to develop locally appropriate strategies to enhance support networks, build skills and capacity in identified areas, strengthen the social fabric, increase community self-reliance and identity and reduce anti-social behaviour and social isolation.

Projects may draw upon a range of strategies such as:

- arts and other creative activities;
- physical activity;
- skills development.

Where possible, projects should actively involve people from the target group(s) in the project and decision making. Activities must be accessible and affordable to people with low incomes.

Projects must be time limited - that is have a beginning and end date. Lotterywest support may be provided for up to three years, depending on the nature of the project.

Projects costs may include:

- Operating costs such as wages, administrative costs, professional fees, travel and other expenses.
- Capital costs (on a one-off basis), depending on the length of the project.

Types of Projects Supported

These grants support projects that:

- Will help make a difference to an identified WA community or issue.
- Seek to facilitate lasting change.
- Are community 'owned' and have strong community support.
- Help build a more inclusive community.
- Help build community capacity, self reliance and sustainability.
- Are well supported through a project plan and project management strategy
- Substantiate the resource needs for the project, including funding from other sources wherever possible
- Include an appropriate evaluation proposal and
- Have plans for what will happen with the project once the Lotterywest grant ends
